DTC PRO

DTC PRO, THE TRIMMING MACHINE FOR PROFESSIONAL RESULTS

The DTC Pro is a professional high-speed trimming machine made of high quality materials. Dutch Trimming Company has developed this device to process large amounts of product in a fast, safe and above all, sustainable way. The key aspect that we had in mind while designing this machine is minimal loss of product.

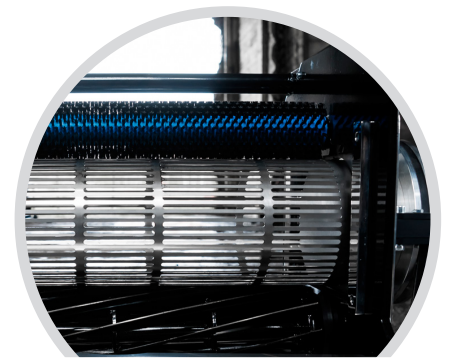

For over 5 years the number 1 trimming in Europe in quality and speed!

DTC PRO specs

Input Voltage	230V
Current Draw	14.8A
Blade Motor	1HP, 0.75kW/750watt
Tumbler Motor	1/30HP, Epoxy Coated
Cut Height	.040" / 1/25 / 1mm
Weight	155lbs / 70kg
Shipping Weight (complete w/leaf collector)	265lbs / 120kg
Length	42.5inch / 107.9cm
Width, with wheels	27.5inch / 69.9cm
Width, without wheels	20.5inch / 52.2cm
Height	32.5inch / 82cm
Height without wheels	30.5 / 82cm
Discharge	6" / 152mm

DTC Pro Leafcollector

Input Voltage	230v
Motor	2HP , UL & CSA Approved, Fan cooled
Amps (running)	9A
Amps (startup)	45A
Motor Speed	3450RPM
Airflow Capacity	1700CFM
Static Pressure	10.5in of H2O
Impeller	12" / 305mm, Balanced Aluminum
Inlet	6" / 153mm
Height	36inch / 91.5cm
Weight	123lbs / 56kg
Circuit Breaker Required	15A / 240V
Connector (plug)	15A 205v (NEMA 6-15)
Sound Rating	80 db
Fused	Yes
Filter bag	1 - 80 Micron
Collection Bag	3 - 6 Mil

Output 20kg/H*

*when trimming wet/fresh product

REAL 20KG/H WE MAKE NO FALSE CLAIMS LIKE THE REST !

Corrosion-resistant Nitrided Blades

Blades	11-blade reel knife
Cuts pr minute	19.000 Cuts/min

DTC ECO

DTC ECO, SMALL BUT POWERFULL

The DTC Eco consists of two parts: an extraction system and a trimming machine, configured such that the trimming machine is situated above the extraction system. During the trimming process, the leaves are neatly caught in a collection bag attached to the extraction system. With its large-diameter tumbler and 11 blade knife, the DTC Eco is able to process 10 KG of fresh product per hour on average.

DTC Eco trimmer

Input Voltage	220V
Current Draw	2A
Blade Motor	370w / 0.37Kw / 0.25HP
Tumbler Motor	6W / 1 / 125HP
Weight	56lb / 25.4kg
Shipping Weight (complete w/leaf collector)	120lbs / 54.4kg
Cut Height	0.40" / 1/25 / 1mm
Machine size	25inch / 63.5cm
	15inch / 38.1cm
	16.5inch / 42cm
Tumbler diameter	6.4inch / 16,3cm
Reel knife	11 blades

Portable and easy to carry. Use the DTC eco where ever you need it.

DTC Eco leaf collector

Input Voltage	220V
Motor	2HP , UL & CSA Approved, Fan cooled
Amps (running)	9A
Amps (startup)	45A
Motor Speed	3450RPM
Airflow Capacity	1700CFM
Static Pressure	10.5in of H2O
Impeller	12" / 305mm, Balanced Aluminum
Inlet	6" / 153mm
Circuit Breaker Required	15A / 240V
Connector (plug)	15A 250V (NEMA 6-15)
Sound Rating	80db
Fused	Yes

ADD MACHINES

MORE PRODUCTION, NO INCREASE IN LABOR!

All DTC machines are produced in accordance with CE protocols and GMP standards. They are equipped with emergency stop button and full covers over every moving part of the machine. Unique to DTC, adding multiple machines back to back in tandem allows you to "Scale Up" your production up to 150% without adding any additional labor costs.

The **DTC Pro** is designed to run in tandem. Grow your business with confidence by adding 2 trimmers tandem when needed, amping your professional Cannabis production to 40kg per hour with absolutely no increase in labor!

Equipped with full covers over every moving part of the machine

Equipped with emergency stop button

*GMP certification requires additional measures be taken, such as record keeping, personal qualifications, sanitation, cleanliness, equipment verification, process validation, and complaint handling.

TRIM WET OR DRY

ALWAYS THE RIGHT TUMBLER FOR YOUR HARVEST

Trim a broad range of moisture content, 11% to fully hydrated product. All DTC trimming machines are designed for you to make the decision to trim wet or dry.

You can change the tumbler from wet to dry within seconds, without using any tools!

CONVEYOR BELTS

DTC IN- & OUTPUT CONVEYOR BELTS WITH AJUSTABLE SPEED CONTROL

The DTC conveyors makes it easy to ensure the machine is always trimming the right amount of flowers, hours after hour. No downtime. No lag.

Control Quality _____

The DTC Conveyor makes quality control a breeze by providing an unmatched ability to visually inspect, touch up or reject any flower.

DTC Certified _____

DTC Conveyors work with both the DTC Pro and DTC Eco trimmers.

Easy To Feed _____

The DTC food conveyor provides up to 20% improvement in load speed and consistency of trimming.

FDA-Approved food conveyor belt ensures fully compliant handling and movement of your flower.

Adjustable legs allow your setup to match your conditions, uneven floors or custom setups.

Adjustable speed control allows you to adjust you load speeds to match your ideal output in KG per hour.

CLEANING AND LUBRICANT

DTC GREEN & CLEAN AND LUBRICANT FOR EASY CLEANING & LUBRICATION

DTC Pro Green & Clean keeps your trimming machine and all your other horticultural and cutting tools free of resin. It is 100% organic and does not stain the product during normal use. In combination with DTC Lubricant, it cleans the machine very effectively and easily.

DTC Pro Lubricant is a non-stick lubricant that includes a resin solvent. Use this agent before you start working to prevent dirt from accumulating. In order to clean your machine from dirt and odour, we recommend using DTC Pro Lubricant in conjunction with DTC Pro Green & Clean.
